Please read these instructions completely before operating the units.

SAFETY PRECAUTIONS

- To ensure proper use, please thoroughly study these SAFETY PRECAUTIONS before operating the Unit.
- The purpose of the safety precautions in this manual is to ensure safe and correct use of the unit to minimize risks that could cause serious damage and injury to you or other persons. The safety precautions are divided into WARNINGS and CAUTIONS. Cases where improper handling of the unit could lead to death or serious injury are listed under the "⚠️WARNING" heading. However, the cases listed under the "⚠️CAUTION" heading could also lead to serious results. To ensure the safety, adhere strictly to both types of safety precautions.

 **WARNING** Improper handling of the unit could lead to death or serious injury.

 **CAUTION** Improper handling of the unit could lead to serious results depending on the circumstances.

- Text set off by the exclamation mark  contains information that should be strictly adhered to.
- After reading the instruction manual, store it an easily accessible place where the user(s) of this product can easily find it.

◆ PRECAUTIONS FOR INSTALLATION

 **WARNING**

Installation should be performed only by the dealer or a qualified expert. Attempting to install the unit yourself could result in water leakage, refrigerant leakage, electrical shock, or fire.

◆ PRECAUTIONS FOR USE

 **WARNING**

<div><p>DONT TAMPER</p></div> <p>All repairs, disassembly and modifications should be performed only by qualified technicians. Attempting to perform these yourself could result in a fire, malfunction, and injury.</p> 	<div><p>ELECTRICAL SHOCK HAZARDS</p></div> <p>Never splash water directly onto the product or wash with water as short-circuit and electrical leakage could result.</p> 
<div><p>ANGER OF EXPLOSION</p></div> <p>Never put flammable or volatile substances into the unit as explosion and fire could result.</p> 	<div><p>PROHIBITED</p></div> <p>Do not damage, modify, excessively bend, strain, twist or bundle up the power cord. Also, placing heavy objects the power cord or squeezing it in a tight place could damage it, possible resulting in electrical shock or fire.</p> 
<div><p>PROHIBITED</p></div> <p>Use a dedicated wall outlet. Do not use extension cords or convenience receptacles as this could result in electrical shock, overheating and a fire.</p> 	<div><p>FLAMMABLE</p></div> <p>Never use flammable spray cans or leave flammable substances near the unit. Sparks from electrical switches could result in explosion and fire.</p> 

SAFETY PRECAUTIONS

⚠ WARNING

The cooler is intended for storage and display of cake for sale. Do not use for other purpose than the intended as this could adversely affect items placed in the unit.

Cake

ROTATING DEVICE

Never attempt to insert fingers, sticks, etc. into the cold air suction outlet. A circulation fan is rotating at high speed inside the outlet. Injury, electrical shock and improper operation could result.

PROHIBITED

For indoor use only. Using the unit in a location exposed to rain could result in electrical leakage and electrical shock.

PROHIBITED

Never place heavy objects or items containing water on top of the unit. Objects could fall down and cause injury and spilled water could deteriorate the insulation of electrical components and result in electrical leakage.

Install the unit in a location where the floor is sturdy enough to support the load of the unit. If the floor is not sturdy enough or installation is incorrectly performed, the unit could tip over and falling shelves and products could cause personal injury.

CAUTION AGAINST EXPLOSION

If you find gas leakage, please don't touch the chest freezer, and close gas and open the door for ventilation. Gas leakage cause explosion, fire, and fire injury.

Store the unit in a location where it is not exposed to rain. Using a unit that has been exposed to rain could result in electrical leakage and electrical shock.

Away from hot air sources
Cooling performance is reduced if the unit is placed near heat sources such as hot plates and stoves and if it is exposed to direct sunlight.

Leave disassembly and disposal of the unit to qualified experts.

Should the unit need temporary storage, make sure not to store the unit in a location where children play and take precautions so that the door cannot be completely closed. This will minimize the risk that a child becomes trapped inside the compartment.

SAFETY PRECAUTIONS

⚠ WARNING

WELL VENTILATED PLACE

Please make more than 10cm space between Chest freezer and wall. If there are no space, cooling capacity can drop down.

If installation in a damp location is unavoidable, also install an electrical leakage circuit breaker. If no electrical leakage circuit breaker is installed, electrical shock could result.

PROHIBITED

Never hang from the door or climb onto the unit. The unit could tip over or fall and cause material damage or injury.

DISCONNECT POWER CORD PLUG FROM WALL OUTLET

Disconnect the power cord plug from the wall outlet before moving the unit and make sure that the power cord is not damaged during transport. A damaged power cord could result in electrical shock and/or fire.

DON'T PINCH FINGERS

Grasp the handle when closing the door. Holding at other positions could result in pinched fingers and injury.

Do not touch

Do not push hand against or apply excessive force to glass surfaces as the glass could break and cause injury.

When disconnecting the power cord plug from the wall outlet, hold at the plug main body close to the outlet. Pulling the cord could cause wire breakage, possible resulting in overheating and fire.

Make sure that the unit does not tip over or fall when it is moved. A falling unit could cause serious injury.

PROHIBITED

Do not throw items onto the shelves and do not place items totaling more than 30Kg on each shelf. The shelf could fall down, possibly cause injury.

Be sure attach and secure shelves correctly. An improperly attached shelf could fall down and cause injury.

HOW TO USE

BEFORE USE

- Please put the cake showcase on strong and leveled surfaces, if the floor is uneven, please make it even.
- Avoid installation in strong sunshine area, make it away from heat sources.
- Please make more than 100MM distance from the cake showcase to the wall. Do not put anything on the top of glass to make sure the good ventilation, especially the hot sources.

ELECTRIC SAFETY

- Rated input power is 220V/50HZ. The power input is listed on the rating label which on each unit. If the power supply and voltage is unstable, a power regulation should be connected to avoid damaging the compressor and fan motor. And please use the 1.5mm² cord
- For safety reason, the unit must be properly earthed, with independent power socket, which is 15A at least.
- When it is power off or needed be cleaning, please unplug the unit from the socket, after unplugging the unit, wait at least 5 minutes before re-plugging it.

KNOW THE SWITCH

When LED of switch is lighting, it means the switch is "ON"

- POWER SWITCH: The power switch control the power supply. If turn it to off, the power will be cut off.
- COMPRESSOR SWITCH: When turn on the compressor switch, the compressor will be running.
- LIGHT SWITCH: You can turn the light on or off by this switch.
- DEFROST SWITCH: Very high ambient temperature and very high humidity can lead to condensation points on the glass surface, you can turn on the DEFROST SWITCH to get rid of the condensation. Then turn off the switch.

CLEANING

- Do not use the water to clean directly. Do not use steel wool, caustic soap, abrasive cleaners, or bleach to clean the cake cooler.
- Please clean the cake showcase periodically, especially the aluminum fan cover

HOW TO USE

inside cabinet. Open it firstly when cleaning, to avoid the cake crumb breeding bacterium. And please clean the water drain tray weekly.

- Please clean the condenser coil monthly. Take out the dust filter and reinstall it after clean. Clean the track periodically.

USING THE COOLER

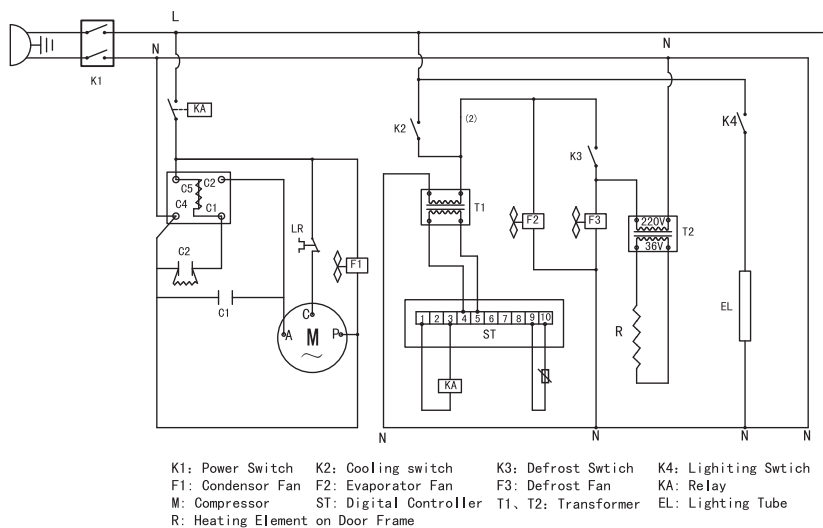

- CONTROL PANEL is located on the bottom plate of Cooler
- Close the door
- Plug into socket
- Turn on the POWER switch
- Turn on the LIGHTING switch as your requirement
- Turn on the COMPRESSOR switch after five minutes
- Turn on the DEFROST switch when condensation on glass
- SET THE OPERATING TEMPERATURE AS BELOW SETP

1. Press the button. The display will flash.
2. Press the or buttons to display the required temperature.
3. Press the button to store the temperature.

DIAGARAM

- Ambient temperature range: 2-8⁰C

WARNING

WARNING: Do not splash water directly onto the cooler and do not wash with water. Short-circuit and electrical shock could result.

- Clean the cooler regularly to keep it clean at all times.
- Never use polishing powder, soap powder, benzene, oil or hot water as these will damage the painting and plastic components.

2 CHECKS

To ensure the safety, perform the following checks after cleaning.

- Is the power cord plug firmly inserted into a dedicated wall outlet? Confirm that the plug is not abnormally hot.
- Check the power cord for cracks and damage. Should the slightest irregularity be observed, contact the dealer from whom you purchased this unit or our customer's service.

IN CASE OF THE FOLLOWING

1 POWER FAILURE

Keep opening and closing of the door to a minimum.

Avoid placing new items in the cooler as this will raise the temperature inside the compartment.

2 WHEN NOT USED FOR A LONG PERIOD

Remove all items from the compartment and disconnect the power cord plug from the wall outlet.

Clean the compartment interior and wipe away all water.

To prevent mold formation and bad smell, leave the door open to dry the compartment completely.

3 TRANSPORTATION

Disconnect the power cord plug from the wall outlet.

When moving the cooler, make sure that the feet do not damage the power cord.

Do not let the feet hit against floor steps, thresholds, etc.

4 TEMPORARY STORAGE

Affix a piece of wood, etc. Between the door and main unit to prevent complete closing of the door.

Make sure not to store the unused cooler at a location where children play.

Should a child enter the compartment and the door is closed, the child may not be able to open the door from the inside.

INSTRUCTION MANUAL

BEFORE REQUESTING SERVICE

Please check the following items if you encounter problems with the unit. If the problem continues after taking the proper remedial actions, disconnect the power cord plug from the wall outlet.

Transfer the items stored in the cooler to a box or other container. Then contact the dealer from whom you purchased this unit and be ready to provide information as listed in "REQUIRED INFORMATION" below.

CAUTION

To prevent any electrical shock hazards, do not disconnect the power cord plug from the wall outlet with wet hands.

BEFORE REQUESTING SERVICE

No refrigeration at all	<ul style="list-style-type: none">● Is the power supply interrupted?● Is the power cord plug disconnected from the wall outlet?● Are the shop's power fuses blown and/or the circuit breaker activated?
Inadequate refrigeration	<ul style="list-style-type: none">● Is the temperature setting appropriate?● Are items obstructing the cold air inlet and suction outlet?● Are stored items packed too tight?● Is the door open or is it opened and closed frequently?● Is the condenser clogged?
Excessive noise	<ul style="list-style-type: none">● Are all feet in firm contact with the floor?● Is the rear panel of the cooler contacting the wall or other objects?● Are other objects in contact with the cooler?
Condensation on cooler exterior	<ul style="list-style-type: none">● Condensation may condense on the exterior and door during hot and humid days or depending on the place of installation. This occurs when the humidity is high and water particles in the air contact cold surfaces. This is normal.wipe away condensation with a dry cloth.

Showcase sometimes stop running when thermostat turns off.
